TALLULAH FALLS, GA.

SHRUBBERY — ORNAMENTAL TREES GALAX — SPRAYS

The first name is the common name by which the following shrubs and trees are usually known:

MOUNTAIN IVY (KALMIA-MT. LAUREL-LATIFOLIA.) Blooms profusely in May-June. Small light pink blossoms in clusters. Leaves mottled, green. Grows 5 to 8 feet. Hardy. (Evergreen)

RHODODENDRON (CAROL INLANUM-Rose Bay) Most popular of the rhododendrons. Blooms from May to July, sometimes until much later. Pink blossoms. Small. Yellowish-Green leaves. Makes a beautiful clump or hedge. Grows 6 to 8 feet when not cut back. Very hardy. (Evergreen)

RHODODENDRON (Maximum) Blooms in May. Small white blossoms. Large, long, dark green leaves. Grows 8 to 12 feet high when not cut back. (Evergreen)

AZALEA (Native Azalea-Honeysuckle). Blooms in April very profusely. Blossoms deep pink and yellow. Very hardy, Really beautiful in clumps, or dense hedges. Grows 8 to 10 feet when not cut back. (Not Evergreen)

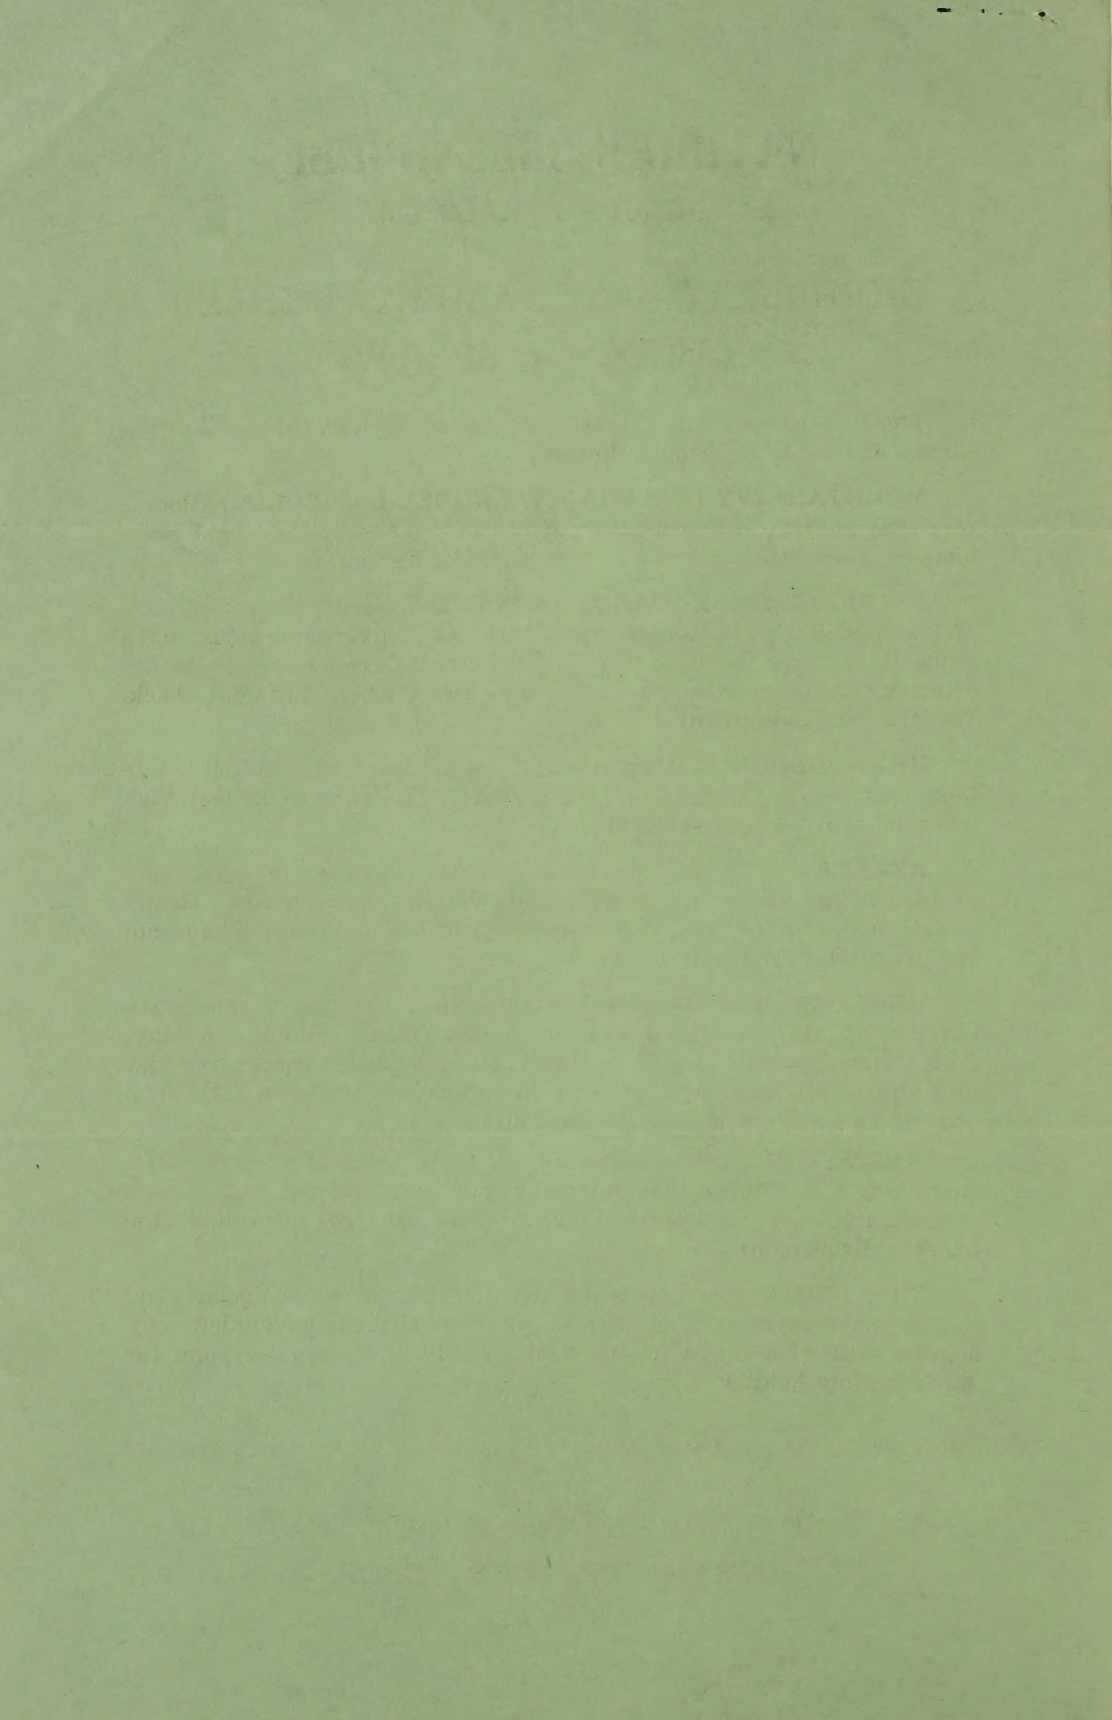

HEMLOCK (Leucethoea-catesbaei) Note. This is a shrub and not the HEMLOCK tree described on next sheet. Blooms in May-June. Small, white blossoms. Dark green leaves, between the size of Kalmia and Maximum. Grows in switches 2 to 5 feet tall when not cut back. Very hardy. (Evergreen)

WHITE PINE (Pinus-Strebus.) A truly beautiful, evergreen, shade tree. Will grow very tall when not cut back. Small, soft needles, light green. Limbs incline to grow in rows around the trunk. (Evergreen)

(Note. While most plants are listed in two sizes, we recommend the larger stock, as it is, of course, more beautifully rounded out, heavier with rich green foliage, and has big, husky root system for quick "taking hold".)

ORDER NOW and get what you want—when you want it!

THE KING OF THE RHODODENDRONS GETS THE
CREAM OF THE CROP.

SPRUCE (hemlock-spruce: *Tsuga Carolina*) Often called fir. Note: This is the **TREE**, NOT the **SHRUB**. Another lovely ever green shade tree. Grows very tall it not cut back. Short, dark green foliage, fern-like. Small Cones. Used extensively for Christmas trees and decorative purposes. (Evergreen)

SILVER MAPLE (*Acer Dasycrpum*) Splendid summer shade. Nice, large leaves. Grows tall if not topped. (Not evergreen)

MT. MAPLE (*Acer Spicatum*) Like above, very hardy and will thrive almost anywhere. Large leaves for summer shade. But it is in the Autumn when this one is truly **GRAND!** Foliage changes to hues of vivid yellow and deep brilliant red. (Not evergreen)

DOGWOOD (*Cornus Florida*). Large, white blossoms almost cover entire tree in April-May. This one is grand as a tree, and is beautiful beyond description, set out in large numbers over acreage. Very hardy. (Not evergreen)

PRICES: Stock listed above and on first sheet: 20 inches, doz. \$2.50; 3 ft. doz., \$7.50 prepaid. Packed with plenty of wet Spg., moss to reach you fine and vigorous.

HOLLY (*Ametican: Ilex-Opaca*) Too well known to warrant lengthy description. Most beautiful evergreen shade. Bears Clipping well. Plant a year-round Christmas tree on your lawn. (Evergreen)

CEDAR (*Juniperus Virginiana*) Short evergreen foliage. Grows to size of very large apple tree. Smaller than hemlock or white pine. Very decorative, and is always popular. (Evergreen)

PRICES: Holly, Cedar 20" each 75c; 3-4 feet, well rounded out, each \$5.50. Excellent root system. Heavily packed with Spg., moss. Prepaid.

GALAX AND TRAILING ARBUTUS for beds, pots and rock gardens. Case of 20 or more full grown plants \$4.25 prepaid. (Both evergreens)

Every plant is carefully selected for good root system, rich foliage and nice formation, carefully dug and packed properly with plenty of wet Spg., moss that is massed and balled about roots to reach you as fine and vigorous as when dug. You are sure to be delighted with plants you get from us. We especially recommend the larger, 3 to 4 ft. stock for heavier foliage, and larger, huskier root systems. Naturally, too, the larger plants are better rounded out for an immediate beautiful showing. We have been in this business many years, and are listed with the Department of Entomology. You take no risk when you order from us.

Special **TEMPORARY** large lot offer: To those desiring large lots for hedges, big clumps, groves, landscaping, etc., we are currently making the remarkably low prices of only \$27.50 for 100 fine large well rounded 3 to 4 ft. plants, mixed as desired and **express collect** in the following: **NATIVE AZALEA, RHODODENDRON, HEMLOCK-SHRUBS, CALICO BUSH, MT. MAPLE, DOGWOOD, WHITE PINE** and **SILVER MAPLE**. (Also you may include **LAUREL AND HEMLOCK-SPRUCE** 2 to 3 ft., 200 for \$48.00; 500 for \$115.00; 1000 for \$225.00, **express collect**.)

This great offer may be withdrawn at any time — we urge quick action.
